

Tree Protection Measures

This technical note has been prepared as part of a request for Listed Building Consent from Havant Borough Council to 'Remove the existing roof structure and gable end walls due to structural failure which are then proposed to be rebuilt in facsimile' at the Coach House at 2 Emsworth Road, Havant, PO9 2SR.

The site is subject to Tree Preservation Orders 1531 and 1995. TPO 1995 is to the rear of the site and not within a sufficient proximity to the works to be affected.

There are no ground works required as part of the works, therefore all protection measures relate to construction management only. Please refer to drawings 24016-102 and 24016-103.

The construction plan indicates that there is adequate existing hardstanding provision for the materials required.

Away from the existing hardstanding there is to be:

- No storage of plant, equipment, or materials.
- No vehicular or plant access.
- No fire lighting.
- No handling, discharge, or spillage of any chemical substance, including cement washings.
- No action likely to cause localised water-logging
- No change in ground levels.

A copy of this document and the accompanying drawings 24016-102 and 24016-103 will be provided to construction workers on site.
