Description: Erection of a 64 bed care home (within Use Class C2) and 6No. dwellings (within Use Class C3) with associated works including access, parking and landscaping.(10.01.24) Request to discharge conditions 4,7 & 8 (12.01.24)

This decision relates to your request to discharge conditions which was valid from 12 January 2024.

Havant Borough Council as Local Planning Authority hereby APPROVES the submitted application as meeting the information requirements of the following Condition of Planning Permission APP/22/00837.

The condition in respect of which information has been submitted are:

Condition 4:

No development shall take place in a phase until the Council has received evidence that the required nutrient mitigation capacity for that phase has been purchased pursuant to the allocation agreement dated 9th May between (1) William Northcroft Butler and James Nicholas Butler (2) HN Butler Farms Limited and (3) Frontier Estates (WAT) Ltd.

Reason: There is existing evidence of high levels of nitrogen and phosphorus in the water environment with evidence of eutrophication at some European designated nature conservation sites in the Solent catchment. The PUSH Integrated Water Management Strategy has identified that there is uncertainty as to whether new housing development can be accommodated without having a detrimental impact on the designated sites within the Solent. Further detail regarding this can be found in the appropriate assessment that was carried out regarding this planning application. In compliance with Regulation 63 of the Conservation of Habitats and Species Regulations 2017, the local planning authority has a duty to ensure that sufficient mitigation is provided against any impacts which might arise upon the designated sites. In coming to this decision, the Council has also had regard to Policy CS11 of the Havant Borough Local Plan (Core Strategy) 2011.
