

SOUTHERN WATER

The diagram is a technical site plan for Southern Water, showing a network of water mains, valves, and manholes. The plan includes labels for 'Emsworth (Station)', 'Garage', 'Mast', 'Subway', 'TCB', 'SULTAN ROAD', 'SEAGULL LANE', 'MALVERN MEWS', 'Builders Yard', and 'Works'. It features numerous green 'X' marks representing valves and manholes, and red 'X' marks representing other structures. Blue circles with numbers (e.g., 8253, 8252, 8251, 8254, 8255) likely represent manhole IDs. Red dashed lines with arrows indicate the flow of water, with distances marked (e.g., 150, 300, 600, 375). A vertical blue line runs through the center, and a horizontal blue line runs across the middle. The plan also shows property boundaries, buildings, and a railway line at the top.
