Dear Mrs Pickup,

I am writing to you in reference to 149 Sunnymead drive, PO7 6BS.

In relation to their application to build a new home in their garden.

I have already made comments online about this, but received a letter from your office asking me to put any issues with the revision in writing.

My concerns are still the same, all they have done is reduce the height by 20cm (how this is going to have any less effect on me and my property is beyond me.)

The reason for buying my house was partly for the openness the outlook it gave us. if this goes ahead, we will have a property virtually next to our boundary

My sitting room and kitchen look directly on to my garden, so all I will see is a 3.5M wall of a building. Why should our outlook be diminished because of someone else's actions. We spend all our time off work in our garden. and have a seating area at the rear. If this happens, we will be sitting 2M away from the new house's front door!

We do not live in an area where you are that close to other houses and don't want to, the main reason people by bungalows are for the space and openness they give as they are normally away from each other.

I have google mapped our area, there are no other plots this has been allowed to happen on. i am well aware there have been no other objections to this. But that is simply because it will only affect me, as I back on to their garden. As mentioned online even a flat roof would be better as it would be about 1M lower. not that i would still be happy but it would be something.

I have attached photos, 3 showing the height it will be and two showing my current view from my kitchen and sitting room.

Regards
