For the attention of Mr Robert Riley

Dear Mr. Riley,

[Redacted text] live at [redacted text]. Our property is [redacted text]. This weekend, a neighbour alerted us to the planning proposal.

Even though we go on regular local walks, the first that we heard about the proposal was from the informal communication with the neighbour mentioned above. Having immediately made a comment online, we today received a letter from your Planning Services department. It alarmed us that such a significant alteration [redacted text] had not been communicated to us before now.

We would like to reaffirm the comment that we made online. We are deeply concerned by the impact that the proposed dormer will have both on our privacy and our perspective of the existing property. [Redacted text], the windows in the proposed dormer would provide an even more significant vantage point from which the owners would be able to look down into our property as well as simply in our direction. This would impact on our privacy, not only in the garden, but also in our conservatory, dining room, and kitchen. We also worry about the impact on the light to our property. For these reasons, we object to the proposal for the dormer.

It says in the letter that we received today that we will be notified of the Council's decision. We look forward to hearing from you.

Yours sincerely,

[Redacted text]
