Subject: RE: APP/24/00096

Hi David

Further to our telephone conversation,

To confirm the original plan showed 6 x ASHP units to the west elevation and the current ground floor plan now shows 3 x units to the west elevation. Please can you applicant confirm the number of ASHPs to be installed on the west elevation? Will they be ground mounted and/or wall mounted? The development of the site will include removal of the existing garages to the west of the site. Can the applicant confirm the boundary treatment to the rear gardens of properties 22-32 Nursling Crescent to be provided once the garages have been removed? Appropriate boundary treatment will help to mitigate the noise impact arising from the ASHPs.

Regards

Helen Le-Vallee, MCIEH
