Dear Sirs,

Oaklands RC School, Stakes Hill Road, Waterlooville, PO7 7BW

Siting of a proposed single storey modular building

Thank you for the consultation on the above application. The proposal sits within the private school site for a modular building which is to cater for existing administrative activities being undertaken to support the operation of the school and therefore will not generate any additional traffic demand.

No new vehicular access is required from the Highway and the immediate access to the building is to be catered for from an existing footway provision on the site.

The building does result in the loss of 15 parking spaces to which the design and access statement state is an over provision for the site needs. Subject to the Havant Borough Council as the Parking Authority being content that the loss of parking will not result in overspill demand onto the public highway then the Highway Authority raise no objection to the application.

Yours sincerely,

Holly Drury
