YOUR REF:

Dear Case Officer.

1. I have carried out a review of the relevant documents available on the HBC planning portal and provide the following comments. Please note this is as desktop review only, as I have not had instruction for a site visit. In the absence of a site visit I must assume the submitted descriptions and assessments of the trees and the site to be true, fair, and accurate.
2. I have reviewed the documents that have been submitted recently and forwarded to me by email. Unfortunately, these do not provide the information that I have requested in my previous comments.
3. To enable on site checking and, if required, enforcement I have requested the submitted Dimensioned Tree Protection Plan. The resubmitted plan does not have dimensions, therefore cannot be used for this purpose. A plan showing GPS set out nodes has been provided, but again this cannot be used to check fencing positions without GPS equipment. Furthermore, this plan is not referenced in the Arboricultural Method Statement.
4. In summary the information requested has not yet been provided.
