

Planning Application APP/20/00990 conditions 22 and 23 Havant Thicket, adjacent to Sir George Staunton Country Park, Middle Park Way, Havant

Dear Mr Lakhan,

Planning Application APP/20/00990 conditions 22 and 23 Havant Thicket, adjacent to Sir George Staunton Country Park, Middle Park Way, Havant

Thank you for your consultation regarding archaeological conditions. I must confess to a level of uncertainty. The application seeks to address the discharge of a large number of conditions which have accumulated over time. The request to discharge the archaeological conditions was received on the 3rd May 2023 and responded to on 5th June 2023. This correspondence is on the application web site.

Am I correct in assuming that the present request, which post dates that exchange, is for the recently submitted request to discharge conditions (which are not archaeological)? If so I am happy to confirm that I would not raise any archaeological objection to the discharge of the other conditions and would rely on the archaeological scheme of works put in place to address any archaeological issues arising.

With regard to archaeological conditions I would reiterate my response of 5th June 2023.

Yours sincerely

David Hopkins
