**TOWN AND COUNTRY PLANNING ACT 1990 (AS AMENDED)
TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT) (ENGLAND)
ORDER 2015 (AS AMENDED)**

Prior Approval is Required and Hereby Given

Application Number: APP/22/00396

Site Address: 2 Four Keys House, 128 Elm Grove, Hayling Island, PO11 9EH

Proposal: Prior Approval for development consisting of a change of use of a building and any land within its curtilage from Class E (commercial, business and service) to Class C3 (dwellinghouses).

I refer to your notification on 12 May 2022, which was valid from 17 May 2022, with regard to the above proposal and write to advise you that:

PRIOR APPROVAL IS REQUIRED AND HEREBY GIVEN

You are advised that under the provisions of Part 3, Class MA of the Town and Country Planning (General Permitted Development) Order 2015 (as amended), development is permitted subject to the following conditions:

(a) Development under Class MA must be completed within a period of 3 years starting with the prior approval date; and

(b) A building which has changed use under Class MA is to be used as a dwellinghouse within the meaning of Class C3 of the Schedule of the Use Classes Order and for no other purpose, except to the extent that the other purpose is ancillary to the primary use as such a dwellinghouse;

and is subject to compliance with:

(i) The plans and other documents submitted with regard to your application; and

(ii) The following conditions:

- 1 The development hereby permitted shall be carried out in accordance with the following approved plans:
001 Amended proposed elevations

Our Ref: APP/22/00396

Reason: - To ensure provision of a satisfactory development.

- 2 Prior to the occupation of the development hereby approved, the applicant shall provide documentary evidence to confirm that the acoustic mitigation measures to be employed with regard to the building envelope, including fenestration and ventilation, will meet BS8223:2014 standards as recommended for indoor ambient noise levels for dwellings, especially in relation to living rooms and bedrooms i.e. during the day (07:00 to 23:00) 35 dB L Aeq,16 hour and at night (23:00 to 07:00) 30 dB L Aeq,8 hour for bedrooms.

Reason: To protect the amenities of the future occupants of the proposed dwelling, and to ensure the residential amenity of the properties is not impacted upon by any external noise levels, especially from the two commercial premises either side of this proposed unit, and any road traffic noise and deliveries to businesses from Tidworth Road. This condition is in line with Policies CS16 of the Havant Borough Local Plan (Core Strategy) 2011, DM18 of the Havant Borough Local Plan (Allocations) 2014 and the National Planning Policy Framework.

- 3 The development hereby permitted shall not be occupied until:
(a) A water efficiency calculation in accordance with the Government's National Calculation Methodology for assessing water efficiency in new dwellings has been undertaken which demonstrates that no more than 110 litres of water per person per day shall be consumed within the development, and this calculation has been submitted to, and approved in writing by, the Local Planning Authority; and
(b) All measures necessary to meet the approved water efficiency calculation have been installed.

Reason: There is existing evidence of high levels of nitrogen and phosphorus in the water environment with evidence of eutrophication at some European designated nature conservation sites in the Solent catchment. The PUSH Integrated Water Management Strategy has identified that there is uncertainty as to whether new housing development can be accommodated without having a detrimental impact on the designated sites within the Solent. Further detail regarding this can be found in the appropriate assessment that was carried out regarding this planning application. To ensure that the proposal may proceed as sustainable development, there is a duty upon the local planning authority to ensure that sufficient mitigation is provided against any impacts which might arise upon the designated sites. In coming to this decision, the Council have had regard to Regulation 63 of the Conservation of Habitats and Species Regulations 2017 and Policy CS11 of the Havant Borough Local Plan (Core Strategy) 2011.

- 4 At all times following occupation of the development hereby approved, all measures necessary to meet the approved water efficiency calculation shall be maintained so as to ensure that no more than 110 litres per person per day shall be consumed in the development in perpetuity.

Reason: There is existing evidence of high levels of nitrogen and phosphorus in the water environment with evidence of eutrophication at some European designated nature conservation sites in the Solent catchment. The PUSH Integrated Water Management Strategy has identified that there is uncertainty as to whether new housing development can be accommodated without having a detrimental impact on the designated sites within the Solent. Further detail regarding this can be found in the appropriate assessment that was carried out regarding this planning application. To ensure that the proposal may proceed as sustainable development, there is a duty upon the local planning authority to ensure that sufficient mitigation is provided
