Summary:

Comment:

7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality

7.2 The report relates specifically to assessing the proposed works rather than generally

inspecting the tree's health and condition in any great detail.

7.3 The Council seeks to protect tree coverage in the Borough, but when considering a section 211 notice the Council must consider the impact of the proposed works to the amenity value of the tree and its contribution towards preserving and enhancing the character and appearance of the Conservation Area to determine if it justifies protection by a TPO. In this case, the relative merits of T1 willow do not merit further protection.

7.4 When considering the amenity value, the Council is advised by National Planning Practice Guidance (PPG) 'Tree Protection Orders and Trees in Conservation Areas'. The PPG state a number of criteria for the Council to consider, which include visibility, size and form, future potential, rarity, cultural/historical value, relationship with the landscape and contribution to the character and appearance of the Conservation Area.

7.5 The proposed works would not have a detrimental impact on the character and appearance of the Conservation Area and would be in accordance with Policy CS11, CS16 and DM8.1 of the Core Strategy (2011).

8 **Conclusion**

Raises No Objection

9 **RECOMMENDATION:**

That the Head of Place be authorised to **RAISE NO OBJECTION** for application APP/23/00911

(A)

(B) for the following reasons/subject to the following conditions
