C	Sample Travel Survey

1 Introduction

- 1.1 Transport Planning Associates (TPA) has been commissioned by Bedhampton Care Home Ltd to prepare this Travel Plan in support of its planning application to Havant Borough Council (HBC) for the development of a 71-bed Care Home.
- 1.2 The site is located along the southern side of the A2030 Havant Road in Bedhampton, Havant. Bedhampton is located approximately 3km west of Havant, 4km south of Waterlooville and 7.25km northeast of Portsmouth. The site location in the context of the local highway network and public transport facilities is illustrated in **Figure 1.1**.

Figure 1.1 Site Location Plan

Source: © OpenStreetMap contributors. Note: Location Indicative

The Development

- 1.3 The proposed development is for the construction of a 71-bed Care Home along with associated car and cycle parking, access and landscaping. The site masterplan is included within Hay Associates Drawing J213_901 Rev H, which is reproduced along with the development schedule in **Appendix A**.

Access

- 1.4 There are two pedestrian accesses into the site, one along the southern boundary of the site and one along the northern boundary of the site.
- 1.5 The first of these pedestrian accesses will be provided along the eastern side of the site access road and will form an extension of the footways provided within the Forty Acre Farm Development. The footway will have a width of 1.6m.
- 1.6 The second pedestrian link will be via a 2.5m wide footpath located along the northern boundary of the site. It will provide a direct link between the Care Home site and the A2030 Havant Road, where the local bus stops, facilities and cycle route are located.
- 1.7 Within the site, a number of footways and footpaths will be provided to link different areas of the site.
- 1.8 Vehicle access to the site will be via an extension to an internal road within the Forty Acre Farm Development. The access will have a width of 4.8m, which is a suitable width for a car and a larger vehicle, such as a refuse vehicle to pass¹.

Cycle Parking

- 1.9 The proposed development will provide 10 cycle parking spaces. The cycle parking store will be located adjacent to the main entrance and will be accessible via the on-site footways. The cycle parking will be covered, well lit and secure.

Car Parking

- 1.10 The proposed development will provide 30 car parking spaces of which two will be allocated for disabled users, with two of the car parking spaces provided at the Care Home being allocated for disabled users.
- 1.11 The proposed development will provide one active EV charging point, which is considered to be in line with the overall needs and aspirations of the NPPF.

¹ Figure 7.1 of Manual for Streets

- 1.12 A minibus parking space is being provided adjacent to the main entrance of the site. The minibus parking space will be made available for ambulances and other emergency services if / when the need arises.
- 1.13 In addition, a delivery / loading bay is being provided along the western side of the site access road adjacent to the site boundary. The delivery / loading bay will cater for deliveries to the site, however this will also be made available to the emergency services if / when the need arises.

Policy

National Planning Practice Guidance (2021)

- 1.14 The latest update to the national Governments' National Planning Guidance ("NPPG") for Travel Plans, Transport Assessments and Statements in decision-taking was released on 24th June 2021. The NPPG provides advice on when transport statements and assessments are required and what they should contain.
- 1.15 With regard to Travel Plans, the guidance states that they should be used as:
- "long-term management strategies for integrating proposals for sustainable travel into the planning process. They are based on evidence of the anticipated transport impacts of development and set measures to promote and encourage sustainable travel (such as promoting walking and cycling)"*
- 1.16 The guidance states that a Travel Plan should be "proportionate to the size and scope of the proposed development to which they relate" and that they must be "tailored to particular local circumstances".
- 1.17 Travel Plans should evaluate and consider:
- *relevant information about existing travel habits in the surrounding area;*
 - *proposals to reduce the need for travel to and from the site via all modes of transport; and*
 - *provision of improved public transport services."*
- 1.18 The NPPG states that Travel Plans can positively contribute towards numerous aspects of travel and within a proposed development.

Hampshire Guidance

1.19 This Travel Plan has been written in line with the 'A Guide to Development Related Travel Plans' which was published by Hampshire County Council (HCC) in January 2009.

1.20 Within the Hampshire Guidance, it states that a Travel Plan is:

"a long term strategy for improving and managing access to a site focusing on promoting sustainable modes, and minimising single occupancy car trips"

1.21 The Hampshire Guidance was introduced to assist developers in preparing high quality Travel Plans. The guidance explains what Travel Plans are, how they should be prepared and when they should accompany a planning application.

1.22 The creation of a Travel Plan as part of the application process has three main purposes, these are:

- Ensuring that development takes place in locations and in ways that minimise the impact of this additional demand;
- Increasing accessibility and ensuring that opportunities are provided for people to travel to and from the Site in a variety of ways; and
- Reducing dependence on the use of the car.

1.23 The Guidance document also notes that:

"For the purposes of the planning process, travel plans must be documented and contain objectives and targets, the policies and measures to be implemented, an action plan and the monitoring and review arrangements.

There should be a process of continual monitoring and review to reflect changing circumstances and to ensure that agreed outcomes are met."

1.24 Travel Plans for new developments in Hampshire should be developed following the principles of the TRACES evaluation criteria, as summarised in **Table 1.1**.

Table 1.1 HCC TRACES evaluation criteria

T ransparent	Plans should clearly identify who is responsible for each element of the plan, how it is to be financed and how targets have been developed
R ealistic	Plans should set realistic but stretching targets which reflect Local Development Framework and Local Transport Plan policies. Targets should take account of best practice and the likely make up of occupants.
A chievable	Plans should only include measures which developers and partners are capable of delivering and which are likely to have a positive impact on travel behaviour.
C ommitted	Plans need clear commitment from the developer and occupier. This can be demonstrated by, for example, the appointment of a travel plan coordinator and the identification of funding to take the plan forward.
E nforceable	The commitments established in the Plan need to be enforceable by the local authorities under the accompanying S106 agreement. This demands precision and clarity in the way measures are set out in the travel plan.
S ustainable	Plans need to demonstrate how they will be managed in the longer term. This includes specifying arrangements for the transition of responsibility from the developer to the occupiers, residents or other organisations and the continuing sources of funding for the plan.

Travel Plan Structure

1.25 This Travel Plan will be structured as follows:

- **Chapter 2:** Existing Transport Conditions;
- **Chapter 3:** Aims & Objectives
- **Chapter 4:** Baseline and Targets;
- **Chapter 5:** Travel Plan Coordinator;
- **Chapter 6:** Influencing Behavioural Change;
- **Chapter 7:** Measures;
- **Chapter 8:** Monitoring Strategy; and
- **Chapter 9:** Action Plan.

2 Baseline Transport Conditions

Site Location

- 2.1 The site is located along the southern side of the A2030 Havant Road in the village of Bedhampton, Hampshire. The site is bound by the A2030 Havant Road to the north, a consented residential development to the east and south and existing residential properties to the west.
- 2.2 Bedhampton is located in the Borough of Havant on the south coast of Hampshire. Bedhampton is located approximately 3km west of Havant, 4km south of Waterlooville and 7.25km northeast of Portsmouth.

Existing Pedestrian Infrastructure

- 2.3 Footways are provided on both sides of the A2030 Havant Road for its length. The northern footway has a width of approximately 1.5m, while the footway on the southern side of Havant Road has a width of approximately 2.5m. From the east of the informal crossing point at the Rectory Road / Havant Road junction the footway on the southern side of the A2030 Havant Road becomes a shared footway / cycleway. The footways along the A2030 Havant Road provide connections to the local bus stops, facilities, services and shops in Farlington and Bedhampton.
- 2.4 Footway / cycleways with a width of approximately 2.5m are currently provided around the northern side of the Bedhampton Roundabout, which is located approximately 800m to the east of the site. The footway / cycleways provide connections between the site and the footways within Bedhampton and Havant. To support and facilitate pedestrian and cycle movements along the footway / cycleway a number of crossing points, which benefit from dropped kerbs and tactile paving, are provided.
- 2.5 The local network of footways benefit from the provision of dropped kerbs and / or tactile paving at local junctions and the provision of informal pedestrian crossing points to both the east and west of the site.
- 2.6 Street lighting is provided along the local highway network for the convenience and safety of pedestrians.

Existing Cycling Infrastructure

- 2.7 An on-road cycle lane currently runs along the northern side of Havant Road from the Havant Road / East Lodge Park junction to the Rectory Road / Havant Road junction. At the Rectory Road / Havant

Road junction, an informal crossing point provides access to the shared footway / cycleway that runs along the southern side of the A2030 Havant Road from the informal crossing to the Bedhampton Roundabout. This shared footway / cycleway runs along the northern boundary of the site.

- 2.8 As outlined earlier, at the Bedhampton Roundabout there is a network of shared footways / cycleways. These provide links towards the Harts Farm Way and a signposted cycle route along Lower Road.
- 2.9 There are two National Cycle Routes (NCR) that can be accessed within approximately 1km of the site within Farlington. NCR 22 runs from NCR 20 in Banstead to the Isle of Wight via Guildford, Havant and Portsmouth. While NCR 222 runs on partially traffic-free routes between Eastney in Portsmouth and NCR 22 in Petersfield.
- 2.10 In addition to the above, the local road network benefits from a gentle gradient, helping to make cycling an attractive mode of transport. The local cycle network is outlined within **Figure 2.1**.

Figure 2.1 Local Cycle Routes

Source: © OpenStreetMap contributors.

Local Amenities

- 2.11 The National Design Guide, 2019, suggests that walkable neighbourhoods should be within walking distance of local facilities, which is generally ***“considered to be no more than a 10-minute walk (800m radius).”***
- 2.12 Manual for Streets suggests that ***“walkable neighbourhoods are typically characterised as having a range of facilities within 10 minutes (up to about 800m) walking distance of residential areas... However, this is not a upper limit and.... walking offers the greatest potential to replace car trips, particularly those under 2km.”***
- 2.13 The Institute of Highways and Transportations 'Providing for Journeys on Foot, 2000' suggests that walking distances will vary depending on the journey purpose and outlines these distances, which are reproduced in **Table 2.1**.

Table 2.1 IHT Suggests Acceptable Walking Distance

	Town Centres	Commuting / School	Elsewhere
Desirable	200m	500m	400m
Acceptable	400m	1,000m	800m
Preferred Maximum	800m	2,000m	1,200m

Source: Table 3.2 of the Institution of Highways & Transportation (IHT) publication 'Providing for Journeys on Foot, 2000'

- 2.14 In addition, the Chartered Institute of Transportation's publication 'Planning for Walking 2015' sets out that:

*"Most people will only walk if their destination is less than a mile away. Land use patterns most conducive to walking are thus mixed in use and resemble patchworks of "walkable neighbourhoods," with a typical catchment of around 800m, or 10 minutes' walk"*²

- 2.15 The bicycle is an effective mode of transport for short trips up to five to eight kilometres (approximately 20 – 35 minutes)³. Sustrans has identified a maximum distance which daily commutes could be undertaken by cycle as:

*"We know that in some areas most people are unlikely to walk for more than 2 km (1.2 miles), but are most likely to cycle between 2 (1.2 miles) and 5 km (3.1 miles) for their daily commute."*⁴

- 2.16 Taking all three documents into consideration, it is reasonable to allow differing distances based on age, mobility issues, journey type, nature of the local facility and local topography. The distance to local facilities and services, which is measured from the centre of the site, is set out in **Table 2.2**.

² Page 29, Chartered Institute for Highways and Transportation's Planning for Walking (2015)

³ Changing Journeys to Work, An Employers Guide to Green Commuter Plans, Transport (2000)

⁴ <https://www.sustrans.org.uk/blog/how-transport-modelling-helps-us-plan-cycle-friendly-cities>

Table 2.2 Local Amenities

Amenity		Distance
Transport	Rectory Avenue Bus Stops	100m
	Bedhampton Rail Station	2.2km
Local Facilities	Sunshine Inn Public House	730m
	Pearl of the Orient Take-away	730m
	Tesco Express	740m
	Farlington Post Office	740m
	Drayton Local Centre	1.6km
	Bedhampton District Centre	2km
	Sainsbury's	2.3km
	Havant Town Centre	3km
	Cosham District Centre	3.5km
Healthcare	Sovereign Pharmacy	1.6km
	Drayton Doctors Surgery	1.6km
	Drayton Community Pharmacy	1.6km
	Queen Alexandra Hospital	4.2km

Notes: Measured from the centre of the site

- 2.17 As outlined in **Table 2.2**, there is a range of local services and facilities located within walking and cycling distance of the site, which staff, residents and visitors will be able to access and utilise.

Public Transport Services

Bus Services

- 2.18 The nearest bus stops to the site are located along the A2030 Havant Road, approximately 100m from the centre of the site. These bus stops are served by bus routes 21 and 23, which operate to destinations including Havant, Portsmouth, Southsea and Leigh Park.
- 2.19 The routes of the local bus services along with the location of bus interchanges and rail stations are illustrated in **Figure 2.2**.

Figure 2.2 Bus routes

Source: Hampshire County Council

- 2.20 The bus stops along the A2030 Havant Road consist of the flag and pole design with shelters, seating, timetabling information and raised kerb levels also present. The bus routes that operate from the local bus stops are outlined in Table 2.3 below.

Table 2.3 Summary of Bus Services from Local Bus Stops

Route No.	Route	Daytime Service Frequency		
		Monday-Friday	Saturday	Sunday
21	Havant – Bedhampton – Farlington – Hilsea – Fratton – Portsmouth	Every 30 Mins	Every 30 Mins	Hourly
23	Leigh Park – Havant – Bedhampton – Cosham – Portsmouth – Southsea	Every 10 Mins	Every 12 Mins	Every 15 Mins

Source: www.stagecoachbus.com

- 2.21 The first and last bus times of the bus services listed in **Table 2.3** are shown in **Table 2.4** below.

Table 2.4 First and Last Bus Times

Route	Direction of Travel	Towards		From	
		First Bus	Last Bus	First Bus	Last Bus
21	Havant - Portsmouth	07:30	21:08	07:58	21:09
	Portsmouth - Havant	07:51	21:45	07:57	22:16
23	Leigh Park - Southsea	06:32	22:05	06:34	22:33
	Southsea - Leigh Park	07:25	23:25	08:11	00:05

Source: www.stagecoachbus.com

- 2.22 As outlined above, the local bus routes operate throughout the day, including early in the morning and late into the evening, providing local workers with realistic alternative travel options at unsociable hours.

Local Rail Services

- 2.23 Bedhampton Railway Station is located approximately 2.2km to the east of the site. The station is operated by South Western Railway with services provided by South Western Railway and Southern. The station is located within a circa 8-minute cycle or an 8-minute journey on bus route 23.
- 2.24 Bedhampton Rail Station provides frequent rail services to destinations including Portsmouth and Southsea, London Waterloo, Havant, Fratton, Littlehampton and Guildford.
- 2.25 During off-peak hours services between London Waterloo and Portsmouth and Southsea operate at a frequency of one train per hour with services between Portsmouth and Southsea and Littlehampton also operating at a frequency of one train per hour. During the AM and PM peaks, the number of services at the station increases, with additional services towards Portsmouth and Southsea.
- 2.26 Journeys to Portsmouth and Southsea take approximately 15 minutes, journeys to London Waterloo approximately 96 minutes and journeys to Littlehampton approximately 42 minutes.
- 2.27 The station is equipped with 20 sheltered and secure cycle parking spaces, ticket machines, smart card validators, customer help points, CCTV and part-time staffing Monday to Saturday.

3 Aims & Objectives

Aims

- 3.1 The aims of this Travel Plan are to:
- Promote sustainable methods of travel;
 - To create a safer, more sustainable, community-driven environment for staff, residents and visitors at the Care Home; and
 - To encourage the use of sustainable transport modes, in order to reduce the need for trips to be undertaken to the Care Home by private car.
- 3.2 To achieve these aims, this Travel Plan promotes a range of travel choices to reduce reliance on the private car.

Objectives

- 3.3 Objectives are the high-level aims of the Travel Plan, giving the document direction, and a clear focus. The specific objectives that form the basis of this Travel Plan include:
- To raise awareness of sustainable, active, and healthy modes of travel (e.g. walking and cycling) available to staff and visitors at the Care Home;
 - To reduce congestion in the neighbouring streets by discouraging car use;
 - To educate staff and visitors on road safety and alternative means of travel;
 - To increase the number of staff and visitors using sustainable modes of travel;
 - To increase the number of staff and visitors choosing 'active travel' options over the private car; and
 - To constantly monitor and review the Travel Plan targets and initiatives with a view to increasing sustainable transport mode share on a year-by-year basis.

4 Baseline & Targets

Modal Share

- 4.1 The modal share is used to establish the likely number of people commuting to the site using different modes of transport. The modal split has been calculated using journey to work data from Office for National Statistics (ONS).
- 4.2 Targets are measurable goals by which the progress of the Travel Plan will be assessed. Targets are essential for monitoring the progress and success of the Travel Plan. Targets should be 'SMART' – Specific, Measurable, Achievable, Realistic and Time-bound:
- **Specific** – The target defines a specific overall reduction in Single Occupancy Vehicle (SOV) trips associated with the site, which the Travel Plan will achieve by developing realistic measures.
 - **Measurable** – The Travel Plan Coordinator will monitor the number of SOV based trips against the targets regularly. The Travel Plan Coordinator will investigate further initiatives and measures and pursue them should the site not meet these targets.
 - **Achievable** – The Travel Plan Coordinator will implement the Travel Plan measures and monitor their effectiveness to ensure all site users can achieve them.
 - **Realistic** – The Travel Plan bases realistic targets upon a reduction of trips.
 - **Time-bound** – The Travel Plan Coordinator will review the targets annually to review if targets are being achieved and whether any adjustments are necessary.
- 4.3 The proposed targets take into account the existing mode share at the site, the baseline transport conditions and the likely staffing patterns and numbers.

Likely Staffing Numbers and Shift Patterns

- 4.4 The Care Home will be staffed 24 hours a day, employing in the region of 60 to 65 employees in both full-time and part-time roles. Whilst the exact staffing numbers and split are not known at this stage, **Table 4.1** below outlines the likely staffing numbers based on a scheme of a similar size.

Table 4.1 Staff Roles

Job Description	Shift Pattern	AM	PM	Night
Manager / Deputy/ Admin / Activities	09:00 - 17:30	5	5	0
Receptionist	09:00 - 17:30	1	1	0
Senior Carer	08:00 - 14:00 14:00 - 20:00 20:00 - 08:00	3	3	2
Care Assistant	08:00 - 14:00 14:00 - 20:00 20:00 - 08:00	11	11	7
Hospitality	09:00 - 17:30	3	3	0
Kitchen Staff	09:00 - 17:30	3	3	0
Maintenance Staff	09:00 - 17:30	1	1	0
Total		27	27	9

- 4.5 Part-time care assistants work more flexible times to suit the peak times within the main shifts. As such, these staffing patterns ensure that staff who use cars will arrive and depart at staggered times during the course of the day.

Staff Mode Share

- 4.6 The initial staff mode share targets are set out in **Table 4.2**, these will be reviewed and amended after the first monitoring survey has been undertaken.

Table 4.2 Staff Mode Split Targets

Journey to Work Method	Baseline Usage	Year 1 Target	Year 3 Target	Year 5 Target
Public Transport	9%	10%	11%	12%
Driving a car or van	65%	61%	57%	53%
Passenger in a car or van	9%	10%	11%	12%
Bicycle	4%	5%	6%	7%
On foot	12%	13%	14%	15%
Total	100%	100%	100%	100%

Notes: Baseline Usage calculated from ONS Dataset WU03EW: Method of Travel to Work (for MSA Havant 18)

- 4.7 The targets focus on reducing single occupancy vehicle trips by 12%, from 65% to 53%, over the initial five years, while increasing walking levels from 12% to 15%, cycling levels from 4% to 7%, public transport from 9% to 12% and car sharing from 9% to 12%.
- 4.8 Visitors to the site are split between those visiting residents at the Care Home and those who are visiting the Care Home on a professional basis such as delivery drivers or service providers. Given this split, it is likely that visitors will travel at a variety of times from a variety of origins with differing requirements and as such it will be difficult to determine a baseline and mode share targets of this group. It is therefore concluded that targets for visitors will not be set, however, information relating to sustainable travel will be provided for all visitors in an attempt to set a shift towards more sustainable modes of transport.
- 4.9 An annual travel survey will be carried out in order to monitor the progress and act as an indicator of whether the targets are being achieved and whether an adjustment is necessary. The monitoring schedule is outlined within **Chapter 8** of this report.
- 4.10 As previously indicated, the actual baseline mode share will be determined following the first travel surveys that will be undertaken 3 months post-occupation of the Care Home. The targets will therefore be revised in light of these surveys and agreed with HBC and/or HCC.

5 Travel Plan Coordinator

- 5.1 The Travel Plan Coordinator role will be undertaken by a member of the Care Home Management Team, assisted by TPA who will provide any necessary technical support.
- 5.2 The Travel Plan Coordinator will be contactable by either telephone or email; the details of the Travel Plan Coordinator will be made available to employees and any other parties on confirmation of appointment. The appointment will be made a minimum of three months pre-occupation of the Care Home to allow suitable time for the implementation of the measures included within this Travel Plan.
- 5.3 The Travel Plan Coordinator will be responsible for the implementation of the Travel Plan and will lead the strategy for meeting the objectives. The role of the Travel Plan Coordinator will include, but not be limited to, the following activities:
- lead the Travel Plans objective strategy;
 - set up and coordinate management groups that can dictate or influence the strategies (that the developer will fund);
 - coordinate data collection to develop the Travel Plan;
 - function as a point of contact for staff, visitors and the local highway authority;
 - submit the monitoring reports;
 - keep all information on cycle routes, car sharing, bus services and rail services up to date and available; and
 - manage the maintenance of the physical and online community noticeboards.
- 5.4 The Travel Plan Coordinator role will not be the individual's sole job. It is estimated that the Travel Plan Coordinator role will take approximately 70 hours per year, with a varying workload on a week-to-week basis.
- 5.5 In the event that the existing named Travel Plan Coordinator can no longer maintain the role, it will be transferred to another suitable person within the Management Team and the Local Planning Authority officers will be informed.

Travel Plan Budget

- 5.6 An initial budget of £500 per annum has been identified to ensure that the Travel Plan Coordinator has sufficient funds to help promote and implement the various initiatives.
- 5.7 In addition, £1,000 per annum will be set aside to allow for the review and monitoring of the Travel Plan. The monitoring process will be in place for the first five years post-occupation.

6 Influencing Behavioural Change

The '4i' Approach

- 6.1 The initiatives presented within this Travel Plan have focused on increasing the awareness and use of sustainable travel modes through the use of the 4i approach. The 4i approach considers the need to:
- Supply information - The provision of accurate sustainable travel information through a variety of means.
 - Pursue initiatives - Instigating new or linking up with existing schemes to promote sustainable travel options, guidance or advice.
 - Provide incentives - Encouraging participation in initiatives. For example, the provision of discounts or gifts to raise awareness of sustainable transport or providing external incentives such as tax benefits.
 - Continue to influence modal choice towards sustainable travel.
- 6.2 The development of a community spirit to influence fellow neighbours to switch to, or maintain use of, sustainable travel will enhance the value of the initiatives undertaken.

The Five Stages of Change

- 6.3 The 'Five Stages of Change' relate to different people differently, at different stages and at different times. The challenge is to ensure initiatives are introduced at the appropriate time for individuals or groups that will enable them to achieve the most appropriate but least environmentally damaging travel option. The five stages are:
- Pre contemplation – There is no contemplation for change. Initiatives employed at this stage would be based around awareness raising. As there are no existing residents this could be targeted towards people who may not be fully aware of the range of travel options available to them.
 - Contemplation – Acknowledgement has been made of a problem but no plans are in place to overcome it. This is the key stage to seek to influence the mode of travel for people travelling to and from the site. They will have established the need to travel to / from the site, but will then contemplate how to travel. Providing high quality advice on travel options at this stage in their thought process would have an optimal impact. This information could be presented in the Travel Information Packs.
 - Preparation – There is intention to take action. The active role of the Travel Plan Co-ordinator is highly important at this stage. People will be preparing to travel to the site but the ability to influence decisions is much reduced.
 - Action – Modification of behaviour in order to overcome the problem. For many, the opportunity to affect their mode of travel has passed at the point of "action". If they have

chosen to arrive by car, there could be the opportunity to assist with future travel behaviour by providing information on public transport and other local options.

- Maintenance – Working to consolidate gains attained during other stages and prevent a relapse. The continued use of incentives for all site users is important to continue to motivate them in their choice of sustainable travel. It is equally as important to ensure those that travel sustainably continue to do so as it is to “convert” others to sustainable travel. For many visitors to the site, their visit will be too short to consider maintaining sustainable travel options. It is likely, however, that the residents will travel to and from the site on a daily basis and the Travel Plan Co-ordinator could seek to ensure they are able to continue to travel sustainably.

6.4 It is important that consideration is given to the timing of the initiatives in order to achieve the best possible result. In particular, travel behaviour needs to be guided from the outset before unsustainable travel patterns have had a chance to form. Once this occurs, it is difficult to persuade people to switch to more sustainable modes of transport.

6.5 The majority of the trips to and from the site will be new trips and therefore, there is a chance to achieve a modal switch to sustainable modes.

6.6 Therefore, if initiatives are implemented prior or upon occupation, a high level of sustainable travel should be achieved.

Travel Plan Pyramid Approach

6.7 When considering the appropriateness of travel initiatives to promote sustainable travel a hierarchical approach can be adopted that reviews the complementary benefits of sustainable travel with things such as health and environmental benefits that might further influence people’s attitude to change. The hierarchical pyramid can be seen below.

Figure 6.1 Travel Plan Pyramid

- 6.8 The Pyramid approach uses the benefits of a good site location and builds tiers of physical measures, management initiatives, public transport services and marketing methods to create a robust and fully integrated Travel Plan.
- 6.9 The 'Co-ordinator' tier relates to the introduction of a Travel Plan Co-ordinator who is appointed to manage transport facilities in an integrated and responsive way.
- 6.10 The 'Services and Facilities' tier relates to any services and facilities available on site. The limited size of the development means that those at the site depend on the surrounding facilities.
- 6.11 The upper most tier of the pyramid relates to sustainable travel marketing, promotion, awareness-raising, monitoring and review. This could involve personal travel advice for residents or visitors promotional campaigns and other incentives. Transport information should be easily accessible and available at locations such as community notice boards and websites.
- 6.12 In summary, the Pyramid Approach is intended to help organise the measures needed to deliver the Travel Plan objectives, making the Travel Plan robust, integrated and having an impact on the modal shift.

7 Measures

Travel Information Pack

7.1 All employees at the Care Home will receive a Travel Information Pack. It will provide information on sustainable travel options including walking routes to local facilities, cycle route maps, local bus and rail times and local car clubs.

7.2 The Travel Plan Coordinator will be responsible for creating, updating and distributing the packs.

Initiative 1: Develop an Employee Travel Information Pack and distribute to all employees.

7.3 Information on public transport availability, local walking and cycle routes and on-site cycle facilities will be made available to regular visitors such as residents' families and friends. This aims to encourage them to arrive at the site by means other than the car. The Travel Plan Coordinator will be responsible for the availability of appropriate information for visitors.

7.4 Travel information will be provided to residents and their families prior to the residents moving into the Care Home. Travel information will also be provided to professional visitors including external medical staff, hairdressers and entertainers etc. prior to their visit.

Initiative 2: Develop a Visitor Travel Information Pack and make available to site visitors.

Communal Noticeboard

7.5 A noticeboard displaying the relevant travel information can be a persuasive tool for tipping the balance in favour of more sustainable travel. Travel information will therefore be provided on a communal noticeboard in the staff rest room. The noticeboard will provide information on relevant transport facilities such as local cycle routes, green travel initiatives and relevant public transport timetables.

More specifically this board will provide information on:

- **Walking:** information regarding pedestrian safety, information on local footpaths and information about national walking events (i.e. Walk to Work Week);
- **Cycling:** details of cycle routes in the area, details of the onsite facilities for those who cycle (i.e. cycle parking and changing facilities), information about the cycle-to-work schemes;

- **Public Transport:** information on local bus and rail services including frequency patterns and destinations.
- **Car Sharing:** promotional information regarding the benefits of car sharing and the details of an informal car share scheme at the Care Home, as well as information on Hants Carshare
- **Car Club:** Information regarding Enterprise Car Club.

- 7.6 The Travel Plan Coordinator will be responsible for updating the noticeboards to reflect any changes to the local transport services.

Initiative 3: Creation of Travel Information Noticeboard. To be updated with the latest information when required.

Walking

- 7.7 Walking is the most sustainable way to travel. It is free, enjoyable and can help you lead an active and healthy lifestyle, therefore also providing a range of health benefits.

- 7.8 The Care Home benefits from a suburban location and as such, there is a network of footways that can be used to access the site as well as the residential areas within Farlington and Bedhampton. Therefore, in a bid to increase the uptake of walking there will be advertisement of local walking routes in addition the Travel Plan Coordinator will awareness of the health benefits that walking can offer through providing information on the Travel Information Noticeboard and in the Travel Information Packs.

- 7.9 There will be showers, changing facilities and lockers provided at the Care Home for use by staff members.

Initiative 4: Advertise and provide plans showing the local walking routes within the vicinity of the site, on the Travel Information Noticeboard and within the Travel Information Packs.

Initiative 5: Promote the health benefits of walking through information provided at the Travel Information Noticeboard and in the Travel Information Packs.

Initiative 6: The Care Home will provide facilities for use by staff members who walk to work including lockers, changing facilities and showers.

Cycling

- 7.10 Cycling is one of the most sustainable modes of transport to use and studies have shown it can offer many health benefits such as improving the immune system, reducing the risk of heart attacks and improving weight loss.

- 7.11 Good quality facilities and secure parking are often cited as most persuasive to cycling. Therefore, in a bid to encourage staff and visitors to cycle to and from the site, 10 secure cycle parking spaces are provided at the site.
- 7.12 The Travel Plan Coordinator will contact local cycle stores to discuss potential discount schemes for staff cycle and equipment purchases.
- 7.13 There will be some consideration promotion of the national 'Cycle to Work' scheme which enables a tax concession to be obtained for staff purchasing cycles. This involves the operator purchasing the cycles and leasing them to the relevant staff. At the end of the lease, the employee is able to purchase the bike for a pre-determined price based on a percentage of the overall cost of the cycle.

Initiative 7: The Care Home will provide facilities for use by staff members who cycle to work including lockers, changing facilities and showers.

Initiative 8: Provide details and plans showing the routes of the local cycle network, including any key services along the routes. The information will be provided at the Communal Noticeboards and in the Travel Information Packs. Employees will also be provided with information on the UK Government's cycle-to-work scheme (www.cycletowork.co.uk) which can allow people to save up to 39% on the cost of a new bike and accessories.

Initiative 9: Maintenance and provision of 10 cycle parking spaces. The cycle parking will be covered, secure and well lit.

Initiative 10: Creation of a cycle repair kit for use by employees and visitors at the Care Home. This will be stored at reception to ensure it is easy to access. The kit will provide basic cycle maintenance equipment including a puncture repair kit, pump, spare lock, spanner set and spare batteries etc.

Initiative 11: As part of the Annual Monitoring Procedure, a review of cycle parking levels will be undertaken. If the parking levels reach 80% then the Travel Plan Coordinator will work with the Care Home operator to provide additional cycle parking spaces.

Public Transport

- 7.14 The use of Public Transport in the form of bus, trains or taxis will be encouraged by providing:
- information on service frequency;
 - guaranteed ride home for staff in emergency situations;
 - service operating times; and

- details of where to catch the services and interchange if needed.

- 7.15 The Travel Plan Coordinator will be familiar with these services and will be able to assist staff in their use. The Travel Plan Coordinator will regularly check public transport services and inform employees if any changes have been made. Details will be made available at the Travel Information Noticeboard and through a travel alert service whereby the Travel Plan Coordinator emails any significant travel news to employees who sign up to this service.
- 7.16 Copies of the Havant and Petersfield Public Transport Guide, which is produced by HCC (see **Appendix B**) will be made available to staff and visitors at the Care Home.

Initiative 12: Provide plans showing the location of, and distance to the nearest bus stops and rail station in relation to the site and the services that are provided at each. The plans should be located at the Travel Information Noticeboard and in the Travel Information Packs. In addition, all employees will be provided with a copy of the Havant and Petersfield Public Transport Guide, with further copies made available at reception for visitors.

Initiative 13: Promote the use of public transport at the Travel Information Noticeboard and in the Travel Information Packs.

Initiative 14: Liaise with local service operators on an annual basis to discuss the appropriateness of improving existing services / providing new services if relevant and the improvement of local bus stops. This will include the provision of live timing screens at local bus stops.

Initiative 15: Provide web links to local public transport provider's websites so staff and visitors can obtain up to date timetabled information and where possible, obtain real-time information on bus journeys.

Initiative 16: A guaranteed ride home scheme will be set up for staff members for use in emergency situations.

Car Sharing

- 7.17 Car sharing can often be an appealing option to those who do not have access to their own vehicle, or to those that are willing to share their vehicle with others. Car sharing involves staff commuter trips where two or more persons share a vehicle rather than drive separately.
- 7.18 Car sharing offers a range of benefits, not only to those who take part, but also for the local highway network. For example, sharing your vehicle with another person should, in theory, halve your fuel cost for each journey. It also gives you time to do other things such as read or work and it can be a good way to get to know other people. In turn, car sharing should reduce the number of vehicles on the

local highway network which will in turn, reduce local Carbon emissions and the time spent on the network, particularly in congested areas.

- 7.19 In 2012, the National Car Share website stated that *"If everyone who drives on their own to work every day were to catch a lift with someone just once a week, the commuting car journeys would reduce by 20%"*. It is therefore important to ensure that the option of car sharing is available to those who may consider this as an alternative to the private car.
- 7.20 It is important to make people aware that you do not have to own a car in order to participate in a car share scheme.
- 7.21 Due to the small staff base there is an understanding that a formal car share scheme might not be an option. However, the Travel Plan Coordinator will encourage the creation of an informal car share scheme.
- 7.22 In addition, there will be also promotion of Hants Carshare (which is operated by Liftshare), which is a free journey-matching website that operates within Hampshire.

Initiative 17: Provide information on how car sharing works, who can take part, a list of how obstacles (such as the need to drop children off at school or safety concerns) can be overcome and advertise the benefits that can be gained through car sharing. This can be on the Travel Information Noticeboard and in the Travel Information Packs.

Initiative 18: Provide information and promote a local car share scheme within the local area (Hants Carshare).

Initiative 19: A guaranteed ride home scheme will be set up for staff members for use in emergency situations.

Car Club

- 7.23 Car Clubs work by giving members' access to a car on short-term rentals, charging by the hour or day. Car Clubs can provide a great alternative to car ownership as you get all the convenience of a car without the hassle. Membership includes fuel, servicing and MOTs and more, meaning you only ever pay for a vehicle when you need it.
- 7.24 Enterprise Car Club currently operates within Portsmouth, Southsea and other towns within Hampshire. Therefore, the Travel Plan coordinator will work with other local developers, Hampshire County Council and Enterprise Car Club to review options for the introduction of car club parking spaces within Birghampton, Havant and the surrounding area.

Initiative 20: The Travel Plan coordinator will work with other local developers and the local community to review the viability of providing car club parking spaces within the local area.

Initiative 21: Provide information and promote a local car club within the local area (Enterprise Car Club).

Flexible Working

- 7.25 The management of the Care Home will review whether flexible working is feasible for some staff, subject to resident care and operational requirements. This would enable employees to start and finish at times suitable to allow travel arrangements by public transport and car sharing. Such flexibility would also reduce parking demand at staff changeover times.

Initiative 22: Consider a flexible working scheme for the site.

Car Parking

- 7.26 As set out in their Local Transport Plan (LTP), HCC have recently declared a Climate Change Emergency and have set out vision for Hampshire in 2050, with the key target to be carbon neutral by then.
- 7.27 Consequently, the car parking provision has been reduced compared to the standards set out HBCs 'Parking, Supplementary Planning Document' (SPD). In addition to the above, staff will be encouraged to travel to the site via sustainable modes of transport and will be required to ask permission from the Management Team in order to park on-site.
- 7.28 To further support the Councils carbon-neutral target, one EV charging point will be installed at the site.

Initiative 23: Provision of one EV charging point.

Initiative 24: Staff members will be required to gain permission from the Care Home operator in order to park on site.

Summary

- 7.29 The 24 initiatives outlined above will form the basis of the Travel Plan; however, these will be reviewed and amended after each review period to ensure they meet the requirements of the development.

8 Monitoring Strategy

Monitoring Programme

8.1 The Travel Plan will be monitored by the Travel Plan Coordinator at Year 1, Year 2, Year 3, Year 4 and Year 5 with the first monitoring surveys being within three months post-occupation. Following each travel survey, the Travel Plan Coordinator will be required to update the Travel Plan, based on the monitoring and findings of the survey. A *Monitoring Survey* is required to be submitted to HBC and/or the HCC at 12 months, 24 months, 36 months, 48 months and 60 months from the *Initial Monitoring Survey*. The *Monitoring Survey* is to include:

- A statistical summary of the methods of transport used or copies of the completed questionnaires; and
- The method of monitoring progress of the Travel Plan in achieving Modal shift.

8.2 The anticipated timescales for the Travel Plan are:

- *Initial Monitoring Survey*: three months post occupation;
- Submission of *Post-application Travel Plan*: 3 months after initial monitoring survey;
- Year 1 *Monitoring Survey*: 12 months after initial monitoring survey;
- Year 1 Review and updating of the *Travel Plan* by Travel Plan Coordinator: 3 months after Year 1 *Monitoring Survey*;
- Year 2 *Monitoring Survey*: 24 months after initial monitoring survey;
- Review and updating of the *Travel Plan* by Travel Plan Coordinator: 3 months after Year 2 *Monitoring Survey*.
- Year 3 *Monitoring Survey*: 36 months after initial monitoring survey;
- Review and updating of the *Travel Plan* by Travel Plan Coordinator: 3 months after Year 3 *Monitoring Survey*.
- Year 4 *Monitoring Survey*: 48 months after initial monitoring survey;
- Review and updating of the *Travel Plan* by Travel Plan Coordinator: 3 months after Year 4
- Year 5 *Monitoring Survey*: 60 months after initial monitoring survey; and
- Review and updating of the *Travel Plan* by Travel Plan Coordinator: 3 months after Year 5 *Monitoring Survey*.

Monitoring Procedure

8.3 It is recognised that the Travel Plan needs to remain a living document and will therefore be subject to regular monitoring and review. This means the Travel Plan can reflect changing circumstances, and ensure there is a reduction in SOV trips. Monitoring the Travel Plan will ensure initiatives are being promoted in line with demand.

8.4 The Travel Plan Coordinator will maintain the Travel Plan as a living document.

- 8.5 It is recommended that monitoring surveys are undertaken in close liaison with the Local Planning Authority. This ensures comparable and standardised survey results. The surveys would be made up of online or paper questionnaires recording such things as 'main mode of travel', 'reason for choice of travel mode', 'place of residence', and 'attitudinal information about measures which are likely to encourage a switch to sustainable alternatives'. A sample travel survey form is included at **Appendix C**.
- 8.6 Once the surveys have been completed, the Travel Plan Coordinator would then assess the results against the targets of the Travel Plan, to establish whether they have been achieved or not. The Travel Plan would then be updated accordingly.

Review Procedure

- 8.7 The annual review of the Travel Plan will be in the form of a Travel Report produced by the Travel Plan Coordinator. The report will evaluate whether a reduction has been achieved and whether the reduction is in line with the relevant first, third or fifth year targets. If the targets are not achieved the report will state sanctions (if any), which will be implemented. The report should be distributed to the Local Planning Authority and advertised to staff, residents and visitors in order to inform them about the progress that has been made towards achieving the targets.

9 Action Plan

9.1 This section of the Travel Plan introduces the proposed Action Plan that will be put in place to support the Aims and Objectives outlined within Chapter 3. The action plan is set out in **Table 9.1** below.

Table 9.1 Action Plan

Measure	When	Responsibility
Appoint Travel Plan Coordinator	3 Months Prior to Occupation	Care Home Operator
Install Communal Noticeboard	Prior to Occupation	Care Home Operator / Travel Plan Coordinator
Installation of Cycle Parking	Prior to Occupation	Care Home Operator
Installation of EV Charging Point	Prior to Occupation	Care Home Operator
Installation of lockers, shower facilities and changing facilities	Prior to Occupation	Care Home Operator
Create Travel Information Packs for both Staff and Visitors	Prior to Occupation	Travel Plan Coordinator
Create Travel Information Noticeboard	Prior to Occupation	Travel Plan Coordinator
Create cycle repair kit	Prior to Occupation	Travel Plan Coordinator
Set up guaranteed ride home scheme for users of sustainable transport users	From First Occupation	Travel Plan Coordinator
Set up and operation of Informal Car Share Scheme	From First Occupation and Ongoing	Travel Plan Coordinator
Promote walking routes / benefits	From First Occupation and Ongoing	Travel Plan Coordinator
Promote cycling routes / benefits	From First Occupation and Ongoing	Travel Plan Coordinator
Promote public transport services / benefits	From First Occupation and Ongoing	Travel Plan Coordinator
Promote car sharing options / benefits	From First Occupation and Ongoing	Travel Plan Coordinator

Measure	When	Responsibility
Consider a flexible working scheme	Ongoing	Care Home Operator
Initial Travel Survey	3 Months Post Occupation	Travel Plan Coordinator
Post Occupation Travel Plan	3 Months Post Initial Travel Survey	Travel Plan Coordinator
Travel Survey	Years 1, 2, 3, 4 and 5 Post Occupation	Travel Plan Coordinator
Review of Cycle Parking Levels	Years 1, 2, 3, 4 and 5 Post Occupation	Travel Plan Coordinator
Update Travel Plan	Within 3 Months of Travel Survey	Travel Plan Coordinator
Maintenance of cycle parking and changing facilities	Ongoing	Care Home Operator / Travel Plan Coordinator

Introduction

October 2021 Edition

This Travel Guide has been produced to provide you with information on the range of transport choices in your area. It includes details of all bus, coach and other types of transport.

Please note that bus times may change at short notice and if your journey time is critical you are advised to call Traveline or visit www.travelinesw.com.

Most bus or train operators run Sunday or special services on Public or Bank Holidays, including other days around Christmas and the New Year. Please check with Traveline before you travel.

The bus services shown are not operated by Hampshire County Council. We cannot accept responsibility for any loss, damage, injury or inconvenience caused by the cancellation, delay or diversion of a service.

If you have a suggestion, or complaint, to make about a service, please contact the relevant operator. Should the operator fail to provide a satisfactory reply, then contact Bus Users UK or Transport Focus. If it is a bus service supported by the County Council (identifiable by a  on the timetable) we would also like to hear from you. Write to Head of Integrated Transport, Hampshire County Council, Economy, Transport and Environment, The Castle, Winchester, SO23 8UD or email ptgenquiries@hants.gov.uk
