7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

7.3 This application to undertake works to trees protected by a Tree Preservation Order relates to the proposed pruning back to the previous pruning points of three Oak trees in the rear garden of the property. The trees were viewed from the roadside therefore

a detailed inspection was not undertaken. The trees have put on approximately 2m regrowth since the last reduction and the trees appeared to have healthy crowns.

No objections to the application have been received.

8 Conclusion

The work proposed is cyclical pruning undertaken on these trees to manage their size in relation to their environment, this work will not affect the health or amenity value of the trees therefore permission should be granted.

9 RECOMMENDATION:

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/21/00968

(A)

(B) for the following reasons/subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).
Reason: In the interests of tree health and safety.
- 2 The tree works for which consent is hereby granted shall be carried out and completed no later than one year from the date of this decision notice.
Reason: To control the timing of the works
