

Fisher Paykel WM1490F1 9kg Freestanding Washing Machine 1400rpm – WHITE

This one from Fisher & Paykel is A+++ rated, so you're sure to be getting a great washing machine that saves you money and saves the planet. It's got thirteen washing cycles, including Eco and Super Quick (but not together, unfortunately!), so in every situation you have a cycle to counteract dirty clothes.

It's annual energy consumption is 150kWh per annum, which is nice and low. It also uses 42L of water per cycle, so you'll be saving a lot of water compared to the model you've got now. And it's easy on the ears too, it has a minimal 48dB rating and an approved Quiet Mark. No more turning up the TV to drown out the noise of the washer!

Fisher & Paykel create their appliances with you in mind, giving you a sleek appearance and advanced features. This washing machine has luxury features like the AddWash Door, SmartDrive technology and even an interior light so you can actually see all your laundry when the wash is done. Find out more about this model [here](#).
