I still cannot fathom where they'll be but as long as I can't see them from my property I have no objection to solar panels although they do carry a high fire risk hopefully they wouldn't affect my property from that distance

Kind regards

Dear [Redacted text],

Please see attached location plan- the solar panels would be facing away from your property.

Kind regards,

Selina Donophy

Which one faces tulip gardens?

Kind regards

I thought my emails explained I need to know if any access is required from tulip gardens, if it is then I am objecting & how long the work will take. I'd also like to know whether I'll be able to see the solar panels. Are there plans as to how the new structure will look from my side?

Kind regards

I would like to place an objection then as you can't tell me whether I will be directly affected.

Kind regards

Dear [redacted text],

Thank you for getting in touch in regards to APP/22/00496 . I am the planning officer dealing with this planning application.

[Redacted text]

Unfortunately I cannot answer your other queries in relation to length of the works or access as this is not a planning consideration. I would assume works access would be via Edward Close . It is up to the applicant to ensure that any construction is undertaken appropriately i.e at acceptable times of day .

Any further queries/comments feel free to contact me directly via return email.

Kind regards,

Selina Donophy
