Proposed North

Architectural elevation drawing of the proposed north side of a building. The drawing shows a two-story structure with a brick lower level and a siding upper level. The left wing has a large double glass door on the ground floor and a small dormer on the roof. The right wing features a central entrance with a transom window, two small square windows above it, and a larger double window on the second floor. A small porch is visible on the far right.

5749

Ridge height remains as approved @ 5749mm

Garage now attached to the dwelling, not accessed
