Good afternoon Gary,

Thank you for your consultation. Please take my comments below as the Heritage Teams consultation response to the above application.

I would refer you to my detailed comments with regard to the hybrid outline planning application 51680/001. In these comments it was concluded that the development as a whole caused less than substantial harm to the historic parkland and the conservation area. However, the proposals for this phase (northern access route from Manor Lodge Road) cause no harm to heritage assets and as such there is no objection. Having reviewed the conditions that have also been submitted I can confirm I would be happy for these to be discharged from a built Heritage perspective.

Many thanks
