CAUTION: This email came from outside of the council - only open links and attachments that you're expecting.

Dear Mr Eaves,

APP/20/01093 Sinah Lane Conditions Discharge

As set out in my correspondence to Mr Barton, which is attached to the submission, I have had the opportunity to read the submitted written scheme of investigation for the archaeological excavation and I am happy to endorse it to you as meeting the requirements for archaeological excavation as secured by the archaeological condition. I would not object to the partial discharge of the condition in so far as it defines the archaeological excavation and identifies an area where development shouldn't take place prior to the implementation of the archaeological scheme.

I recommend that the condition is not fully discharged until the works and report, as set out in the submitted WSI, have been completed.

Please note that after today I will be leave for two weeks, but my colleague Thom Hayes, copied in, will be happy to assist,

Yours sincerely

David Hopkins
