

Arboricultural Officer comments:

I have no objections to the tree removals proposed. I am in agreement that the TPO'd Poplars are over mature and showing poor structural and physiological condition with a limited safe useful life expectancy. I would expect tree replacements to be planted within the scheme of a good size.

I have concerns regarding plot 1 with the Oak tree in the garden, this needs rethinking as the garden is south facing and there is the potential for pressure to prune or fell the tree. I would prefer to see this plot removed.

Overall, providing the work is carried out in strict accordance with the Arboricultural Method Statement and Tree Protection Plan the trees to be retained will not be impacted by the proposal. Details of services must be provided and be outside of the root protection areas please.

Thanks

Maria

Maria Stewart
