

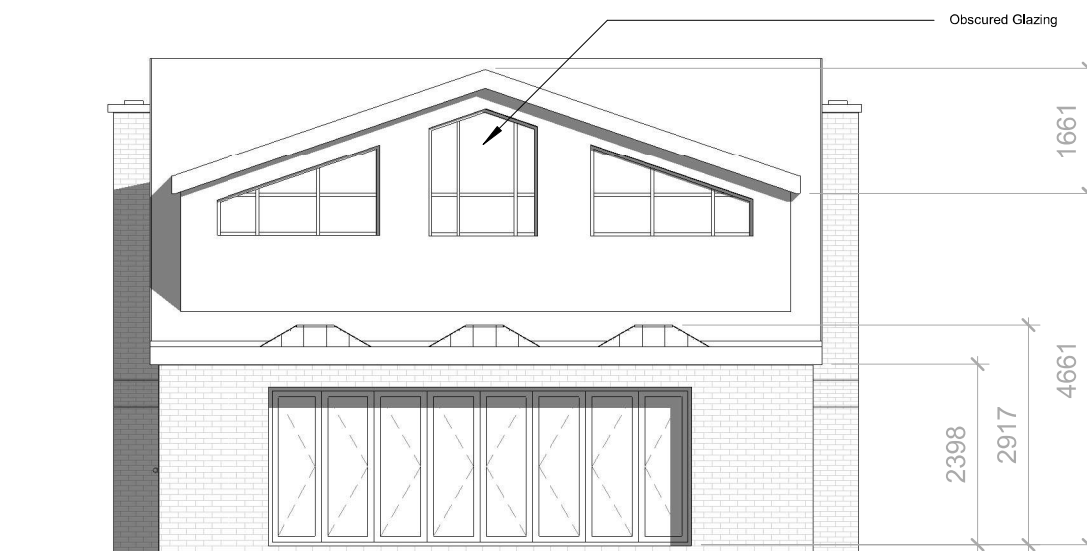

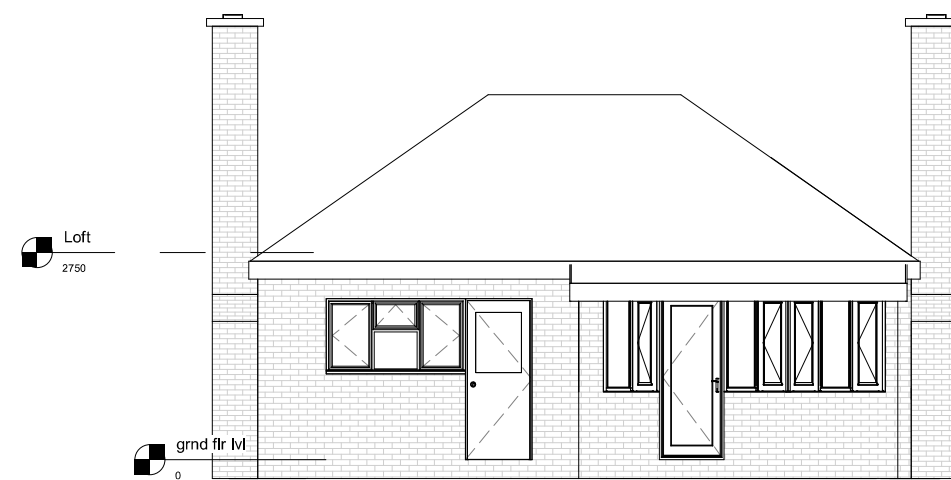

Figure 1 shows a 4x6 grid of rectangles. The rows are labeled on the left with time steps: 1:500, 1:200, 1:100, and 1:50. The columns are labeled on the right with iteration counts: 50, 20, 10, and 5. Each rectangle is divided into four quadrants. The top-left quadrant is white. The top-right, bottom-left, and bottom-right quadrants are gray with different patterns: a diagonal line from top-left to bottom-right, a diagonal line from top-right to bottom-left, and a cross (both diagonals) respectively. The rectangles are arranged in rows corresponding to time steps and columns corresponding to iterations.
