

Tree visibility

This map shows visibility of the trees from various parts of Bacon Lane, Green Lane and Bathurst Close.

From almost all locations the trees are not visible or highly obscured. Note that more would be 'not visible' if the height of the trees were reduced to last approved height.

Numbers cross-refer locations to photographs included below.

1 Not visible

2 Not visible

3 Highly obscured

4 Highly obscured

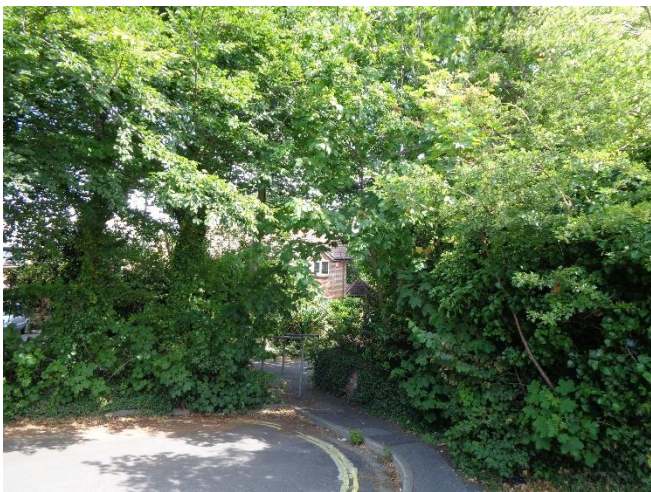

5 Not visible

6 Highly obscured

7 Not visible

8 Not visible

9 Not visible

10 Not visible

11 Partially visible

12 Partially visible

13 Not visible

14 Highly obscured

15 Highly obscured

16 Not visible

17 Highly obscured

18 Highly obscured

19 Not visible
