Dear Sir,

7 New Road, Havant, PO9 1DD

Proposed dropped kerb.

Thank you for your reconsultation on the above planning application. The applicant has now submitted visibility splays and pedestrian intervisibility splays which the Highway Authority have reviewed and have the following comments to make.

The Highway Authority are satisfied that these have been drawn in accordance with HCC TG3 and appropriate visibility can be achieved from the proposed vehicular access.

The applicant is reminded that subject to any planning permission granted by the local planning authority, they will need to apply for a dropped kerb license separately to undertake works on the highway. Further information can be found at the following link: <https://www.hants.gov.uk/transport/parking/droppedkerbs>

Additionally, the applicant is also reminded that that they will be required to extend the access protection line along the full length of the proposed access point to maximise the achievable visibility shown. Details of this procedure can be found at the following link: <https://www.havant.gov.uk/traffic-management/access-protection-lines-apl>

Having regard to the above the Highway Authority provide no objection to the above planning application subject to the following conditions:

*Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI*

ACCESS CONSTRUCTION

The applicant should apply for a S184 license to undertake the dropped kerb works within the highway, in accordance with the approved plans.

Reason - To provide satisfactory access and in the interests of highway safety

ACCESS PROTECTION LINES

The applicant should apply for the access protection line to be extended across the extent of their access.

Reason - In the interest of highway safety and to maximise the achievable visibility shown in the approved plans.

Yours faithfully,

Sophie Osborne
Assistant Transport Planner - Highways Development Planning
