

Dear Mr Oliver,

Planning Application APP/21/01010 Land east of, St Georges Avenue, Havant

Thank you for your consultation regarding the amended details. I am happy to confirm that I would reiterate my previous advice dated 19 October 2021.

I did note that a new version of the archaeological desk based assessment has been submitted. I am not quite sure what changes have been made (the document length and length of individual sections as set out in the index appears to be the same suggesting the amendments were minor), but in any event I have checked that the key conclusions on which my initial consultation response relied remain and therefore I continue to rely on them,

Yours sincerely

David Hopkins
County Archaeologist
