

Heritage Statement- Sea Breeze Cottage

PO11 9DT

Please accept this statement as our commitment to the historical identity of Sea Breeze Cottage Beach Road Hayling Island.

The entire historic fabric of the building remains intact i.e., Thatch roof, original walls and beams including internal historic beams.

The changes made also utilised existing materials i.e., the porch from south elevation became the porch to the north.

Where alterations were made, they replaced earlier non historical alterations i.e., windows and staircase. These were replaced with wooden frames and painted to match the colour of the building's façade.

We would never want to change the integrity and historic value of the building.
