Commenter Type: Complainant

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I live on The Oysters, this is a small community with lots of small children who regularly play outside. More cars coming through this estate would put lives at risk. There are a lot of cars which have to half park on the pavement due to lack of parking and small children can step out from behind a car at anytime.

Also the infrastructure of Hayling and in particular West Town should be considered, there is a very dangerous bit of pavement just by the West Town pub where Mums have to cross the road on a blind corner to take their children to school. Also the access to Doctors should be considered as it is difficult enough to get an appointment now without additional houses on the Island.

Now to wildlife and open spaces - there is very little open space left on the Island, where will the wildlife go? Where will the protected Brent Geese go?

I also notice there is no provision for a children's playground in the new plans, hence there will be more children with nowhere to play without playing on the street!

Finally, the access to Hayling Island as a whole, frequently it can take an hour to get on the Island on a sunny day and an hour to get off the Island. The valued visitors who bring jobs to the Island will go somewhere else if the gridlock continues ruining the livelihood of many people.

Please go and build the new houses somewhere where the infrastructure is stronger and not on an Island with one way on and one way off!

Strongly object
