7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Impact upon the character and appearance of the area
- (iii) Impact upon residential amenity

(i) Principle of development

7.2 The application site is situated within an urban area where further development is considered acceptable subject to the usual development control criteria.

(ii) Impact upon the character and appearance of the area

7.3 The proposed development would involve the replacement of the existing lean to at the rear of the industrial unit. It would be used as a workshop/storage space with rolling shutter doors to the front/side.

7.4 The proposed extension would have fair-faced blockwork with insulated profiled coated steel to match the existing. This is considered to be inkeeping with the context of the main dwelling.

7.5 The proposed works would be partly visible from the street scene however due to its modest scale it is not considered to have a negative impact upon the character of the area.

(iii) Impact upon residential amenity

7.6 The proposed works are not considered to impact the industrial units either side or impact any form of residential amenity.

8 Conclusion

8.1 The scale, siting and design of the proposal would have limited and acceptable impact on the character of the area and neighbours and is therefore considered to be appropriate and recommended for approval.

9 RECOMMENDATION:
