Havant,  
PO9 1BU

## 1.0 Tree Protection Method Statement

- 1.1 Protective fencing is to be erected around the tree(s), as shown on the submitted drawings. All barriers to remain rigid, complete, and in their original setting out position.

### Typical Fencing Details

Figure 2 Default specification for protective barrier

- 1.2 Within the protective fencing there is to be:

- No mechanical digging or scraping once initial ground cover has been removed and the barrier erected.
- No storage of plant, equipment, or materials.
- No vehicular or plant access.
- No fire lighting.

- No handling, discharge, or spillage of any chemical substance , including cement washings.
- No action likely to cause localised water-logging
- No change in ground levels.

1.3 In the unlikely event that roots are exposed during excavation they are to be cleanly severed with bypass secateurs.
