

Dear David

Condition 10 (Materials)

Following on from my email on 23rd with regards to materials – we do indeed find ourselves in a lack of availability issue with the proposed bricks.

By not being able to place the order we have lost the allocation of Crest Old Ryedale and Crest Selbourne Red Stock bricks.

Please can you therefore now consider these alternatives (images attached):

- *Crest Old Ryedale* substitute **Camtech Berwick Multi** This brick to be used to all plots as the Main Brick.
- *Crest Selbourne Red Stock* substitute **Camtech Bursledon/Anglian Red Stock** This brick to be used to all plots as the Feature Brick

NB. the manufacturer has recently renamed the brick so some deliveries could be labelled Bursledon and some Anglian depending upon the stock at the merchants – but they are the same brick. I therefore thought it was prudent to advise you of the same to alleviate any potential concern down the line.

Given the fluctuating market with bricks I would be very grateful if you could advise us if we are okay to order these so to secure the allocation.

Very kind regards

Rachel
