Planning Application: APP/21/01010

Our Reference: 92961

Dear Mr Oliver,

National Highways has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the strategic road network (SRN). The SRN is a critical national asset and as such National Highways works to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

At this location the closest access point to the SRN is the Emsworth Road (A259) dumbbell roundabout arrangement with the A27. The development proposals do present an increase in traffic movement at this junction, however the increase does not result in the need of further mitigation beyond that proposed within the application and no concern as to the safety or operation of the SRN at this location.

We therefore offer no objection to application APP/21/01010.

Kind Regards

Patrick Blake, Area 3 Spatial Planning Manager
