

Subject: RE: Dunsbury Park - APP/21/01267 Phase 5

Hi Lewis,

Landscape: As suggested Barry Chin Associates have reached out to Harry to discuss the remaining landscape points.

Ecology: I had attached the ecology report to our correspondence dated 1st June. Greengage are seeking to speak to Tristan themselves in the hope that he is able to review quickly.

LLFA: Please find attached a Surface Water Drainage and SUDS Strategy (PBA, May 2015). I would specifically direct the LLFA to table 3.1 which details the allowable discharge rates per plot.

- Our ground conditions consultants have been seeking agreement from Jonathan Driver on the proposed remediation strategy for Plot 5 (submitted 20/04). Has Jonathan been in contact with you at all?

Kind Regards,

Jim
