

Recommendation: **GRANT TPO CONSENT**

## 5 Statutory and Non Statutory Consultations

## 6 Community Involvement

This application was publicised in accordance with the Council's Code of Practice for Publicity of Planning Applications approved at minute 207/6/92 (as amended), as a result of which the following publicity was undertaken:

Number of neighbour notification letters sent: 3

Number of site notices: 1

Statutory advertisement: Not applicable.

Number of representations received: 0

## 7 Planning Considerations

- 7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

The tree subject to this application is a large mature Oak displaying what appears to be normal vigour and vitality for the age a tree species, the works applied for are considered to be reasonable and in line with good arboricultural management for a tree of this size and location.

If permitted the works will not detriment either the health or public amenity of the tree.

## 8 Conclusion

**Recommend permission.**
