

## LEGEND

## This is a detailed architectural elevation drawing of a modern multi-story building. The structure features a prominent facade with large, rectangular glass windows and balconies. The balconies are enclosed with dark frames and have glass railings. The building's exterior is primarily composed of dark, textured panels, possibly representing stone or concrete. The drawing includes stylized landscaping elements, such as green trees and shrubs, positioned along the base of the building. The overall style is clean and modern, with a focus on geometric forms and materials. The drawing is presented in a two-dimensional format, showing the building's profile and facade details.

FRONT SOUTH ELEVATION  
SCALE 1:100

## This is a detailed architectural elevation drawing of a modern multi-story building. The structure features a prominent facade of large, rectangular glass windows arranged in a grid-like pattern across several floors. Some windows are shaded in light blue, while others are dark, suggesting different interior spaces or lighting conditions. The building has a flat roof with visible mechanical units and a thin horizontal line extending from the left side. The base of the building is landscaped with various green elements: two large, rounded trees on the left, several tall, thin, columnar shrubs in the center, and clusters of low-lying bushes on the right. The entire scene is set against a plain white background, with a dark grey ground plane at the bottom.
