Comment Details

Commenter Type: Complainant

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to this proposed development. The infrastructure of the Island is already wholly inadequate for the existing residents and businesses. Until something is done to improve road access in particular any further development is completely unsustainable. The very severe impacts to transport, safety of residents (stuck at the end of a cul-de-sac and dependent on a bridge which is closed when flooding occurs), drainage, health services and all the other infrastructure we require for a sustainable life have already been pointed out on numerous occasions. In addition there is the damage to our fast reducing natural environment, which cannot be replaced.
