Subject: RE: Planning Reference: APP/20/01127 - Revised CMS - Update request

CAUTION: This email came from outside of the council - only open links and attachments that you're expecting.

Good morning Lewis,

Please see attached the revised Construction Method Statement in response to the Highway Authority comments.

Please note that it is possible for vehicles to turn within the development area so that they enter and leave the holiday village in a forward direction. For the avoidance of doubt we have introduced vehicle (10m x 2.5m) tracking to drawing 4566-BD-100 Rev.C (also attached).

The location of vehicle wheel washing is also indicated on drawing 4566-BD-100 Rev.C. This is located at the contractor controlled / supervised entry to the site.

I trust that the above and attached are adequate for condition 8 to be discharged.

I was also wondering if there is any update of conditions 6, 12, 14, 16 and 9?

Kind regards

Michaela
