

This is about the planning application for 29 new houses (Barratts) to the north of the Oysters estate Hayling Island.

I am a resident of the Oysters Estate directly south of this proposed development.

I object to this proposal on the grounds that no consideration has been given in the documentation to the impact on the Oysters Estate. Of particular concern is short term access through the Oysters for construction vehicles and the long term increase in through traffic and road maintenance costs.
