Subject: RE: Havant Application Ref: APP/21/00405 - Langstone Technology Park

Dear Susie,

The Translocation Plan does not appear on the documents associated with APP/21/00405, hence my comments referring solely to the recent Ecology Co-op report (which contains essentially identical information) and the previous Biodiversity Enhancement report

My previous comments for this application refer to Phlorum's Biodiversity Enhancement Plan (response to APP/21/00405 VoC dated 8 June 2021) and then the Ecology Co-op report (response to APP/21/00405 VoC dated 6 July 2021). In both responses I stated that the information submitted was satisfactory and that it was the implementation of the submitted details that was key. This will obviously be realised once development commences and the translocation occurs.

In summary, whilst I have not previously reviewed the Translocation report I can confirm that the details it contains are satisfactory.

I hope this clarifies matters?

Kind regards,

Tristan

Tristan Norton
