**Subject:** LA Kingsclere - extension of time request [Filed 30 Sep 2016 13:23]

Dear Both,

I spoke with Holly Drury of HCC yesterday and she seems to consider that matters are moving forward with regard to devising a junction that is acceptable. She agrees with me that there is likely to be parking displacement and so for this reason I consider that I will need to consult residents once a workable solution is devised.

With regard to issuing the planning permission, given that as a planning authority we are aware that the initial junction design has problems, then for transparency sake, we should be re-advertising a scheme that is acceptable - as on road parking may be lost

I note that the s278 cannot be agreed until planning permission is issued but I'm concerned about issuing a planning permission that may require a significant change at a later stage for which there is no mechanism to consult the public

I need to make a decision on the application by the 26 week date (24<sup>th</sup> November) and so I suggest an extension until 11th November. It is delegated and the S106 is completed.

Is this date achievable? I can possibly undertake a short consultation period of 10 to 15 days but will need a revised highways consultation response by the end of October.

Kind Regards

*Heather*
