7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the

main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.
- 7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.
- 7.3 This application to undertake works to trees protected by a Tree Preservation Order relates to the proposed pruning of a group of four Holm Oaks located adjacent to Eastoke Road and by an entrance to a vacant piece of land used for caravans.

The intention is to provide sufficient clearance over the gateway to allow large vehicles in to occupy the land, currently the canopy is too low over the gateway. The western most Holm Oak is a suppressed tree which bifurcates at approx 1m. The intention is to remove the two limbs to create better clearance. The extent of the canopy which will be removed by doing this will not cause the group to be misshapen so it is considered reasonable to allow this work. The remainder of the trees will be crown lifted to 4.5m over the gate and 3m around the rest of the canopy which will not harm the health or amenity value of the trees.

No objections to the application have been received.

8 **Conclusion**

The work proposed is considered to be appropriate and proportionate and therefore permission should be granted.

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/21/01362

(A)

(B) for the following reasons/subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).
Reason: In the interests of tree health and safety.
- 2 The tree works for which consent is hereby granted shall be carried out and completed no later than one year from the date of this decision notice.
Reason: To control the timing of the works
