

I was surprised to see the work that has been carried out on that listed house, Seafields in Kinnell Close, Emsworth.

I think this is not in keeping with this historic building and should not be allowed.

I am attaching some photos of the property as it used to be and I'm sure you will agree that the application (APP/21/01256) should not be approved,

As an aside, I also think these wood burners are detrimental to the environment. (redacted)
