1st October 2021 —

Dear Ms Harvey,

LAND AT LOWER ROAD, HAVANT

Thank you for your letter of the 23rd September 2021, inviting me to comment upon the lighting aspect of condition 9.

Lighting within the public realm increases safety and security, and reduces opportunities for crime and the fear of crime. In this case with the shared surface highway lighting is essential.

Lighting throughout the development should conform to the relevant sections of BS 5489-1:2020. An appropriately qualified lighting engineer¹ will be able to provide a lighting design that balances the needs of safety and security with those of the conservation area.

¹ In order for the designer to be deemed competent for street lighting design, they must have attained an engineering qualification: IEng or CEng. As well as this, the designer must be a member (MILP) or fellow (FILP) of the ILP (Institution of Lighting Professionals).
