

DESIGN OBJECTIVES

- To create a safe, attractive and stimulating environment for residents, staff and visitors.
- The design seeks to:
- create a range of spaces of distinctive character and that offer a range of experiences;
 - provide opportunities for residents to engage with and influence their environment;
 - ensure that the environment is safe, secure and legible;
 - provide an attractive setting for the building and activities within;
 - provide privacy for residents within the building;
 - ensure the protection and integration of important existing vegetation;
 - create an ecologically rich environment, incorporating a range of planting and habitat; and,
 - specify planting that offers sensory and seasonal interest.

For further details refer to the landscape section of the Design & Access Statement

KEY

- Site Boundary
- Levels (indicative - subject to confirmation by engineer)
- Existing Vegetation
 - Existing trees to retain
 - Existing hedge to retain
- Proposed Vegetation
 - Feature tree
 - Pleached tree
 - Multi-stem tree
 - Specimen plant
 - Ornamental hedge
 - Mixed ornamental border
 - Ground cover planting
 - Climbing plant
 - Meadow
 - Lawn
- Street Furniture
 - Pergola
 - Seat type 1
 - Seat type 2 (sculptural cubes)
 - Water feature
 - Sculptural feature
 - Raised plant bed (incorporating seating)
 - Raised plant bed (incorporating wicking system)
 - Greenhouse
 - Compost area
 - Bin store (enclosed within pergola, fence and trellis)
 - Cycle store
 - Sprinkler housing

Boundary Treatment, Access and Level Change

- 2-2.5m high timber acoustic fence
- 1.5m high grey steel railings
- 1.8m high timber fencing
- 1.5m high glass balustrade
- Timber trellis panels
- Vehicular gate
- Pedestrian gate
- Freestanding handrail
- Retaining wall and handrail
- Steps
- Ramp

Hard Surface Treatment

- Feature paving type 1
- Feature paving type 2
- Feature paving type 3
- Decking
- Resin bounded gravel
- Concrete block paving
- Tarmac surface
- Compacted gravel
- Stepping stones type 1
- Stepping stones type 2

Lighting

Lighting to consist of low level bollards, in ground lighting and feature lighting

Arboriculture

For details of existing vegetation to be retained and protection measure refer to the arboriculturalist's information

Ecology

For details of existing site ecology and recommendations refer to the ecologist's information

Architecture

For details of buildings, including details of the extensive green roof refer to the architect's plans
