

Dear Mr S Weaver,

Thank you for consulting us.

We have no comments to make to this planning application.

Since the proposed removable structures (including marquees and temporary facilities) relates to sites which are:

- A residential application less than 0.5 hectare in size and less than 10 dwellings, or
- A commercial development with less than 1000 Sq.m floor space or under 1 hectare in size

There is no need for us to comment on it at this time. However, please direct the applicant to our website <http://www3.hants.gov.uk/flooding/hampshireflooding/drainagesystems.htm> for further information on recommended surface water drainage techniques.

If you specifically need our advice on this application, please contact us. A fee may be charged for this service depending on the complexity of the site.

Also, please note that if the proposals include works to an ordinary watercourse, under the Land drainage Act 1991, as amended by the Flood and Water Management Act 2010, prior consent of the Lead Local Flood Authority is required for this work. This consent is required as a separate permission to planning. Details can be found <http://www3.hants.gov.uk/flooding/hampshireflooding/watercourses.htm>

Kind regards,
Santi
