Comments

Planning Application APP/21/01067 Footpath to front of, Co-op,140 Elm Grove, Hayling Island, PO11 9EH

Application to determine whether prior approval is required for a proposed 5G telecoms installation: H3G Phase 8, 15m high street pole c/w wrap-around cabinet and 3 further additional equipment cabinets.

From a landscape perspective raise an objection to this application for the following reasons:

- The introduction of an 15m high street pole in this particular location is deemed to be detrimental to the streetscape and the cramped footway does not afford any room for soft landscaping to mitigate the impact.
- The associated cabinets will obscure the cycle parking facilities for the co-op and is considered to discourage sustainable transportation which is contrary to planning policy CS1 Health and well-being and CS20 transport and access.

Kind regards,

Harry Mitchell CMLI
