Subject: 31383 - Land at Brockhampton West, App Ref. APP/21/00189

CAUTION: This email came from outside of the council - only open links and attachments that you're expecting.

Dear Lesley,

Following conversations with other officers at the Council and also between other members of the project team and Ricardo, we have noticed that the previously submitted shadow HRA had not been brought up to date with some of the changes and further research that has progressed over the last few months.

For example, the foul discharge has now been confirmed as going into the mains system, rather than being discharged into the Hermitage Stream following on-site treatment, and additional work has been undertaken regarding infiltration and issues around leachate from the landfill material.

To close these issues out and bring the shadow HRA up to date, please find an amended version attached for the file.

Regards,

Matthew
