-The application site is located within the defined urban area; therefore, development is considered acceptable in principle subject to development management criteria.
-It is considered that the scheme would not result in an adverse impact on the visual amenity of the locality, the wider conservation area, or on the listed building.
-It is considered that the proposal is unlikely to lead to overlooking and would have limited and acceptable impact on the properties immediately adjacent to the application site and the properties opposite or to the rear, meeting the requirements of Policy CS16 of the HBLP (Core Strategy).

The Council's Conservation Officer (CO) was consulted over the proposal who has commented as follows:

"In essence, I do not have any specific heritage concerns with the proposal so long as high quality materials are used and that the new fenestration details are provided at application or condition stage."
