Description

Don't be fooled by the simple design of this essentials basin mixer bathroom tap, although it may look basic, the quality and technologies that it uses are top notch. It uses single ceramic disc technology, for easy and smooth operation, all that requires to turn them on and off is a simple flick of the handle and the water will either flow beautifully or stop instantly without so much as a drip. The ceramic discs are also extremely hard-wearing, so they will stand the test of time.

The body and spout are constructed from high-quality solid brass, giving it weight and a feel of quality. This is then beautifully coated in multiple layers of chrome leaving you with a gorgeous final product that won't rust, and will fit perfectly into any decor.

We also include the compatible flexible tails for easy installation, and a 10-year manufacture guarantee for that extra peace of mind!

Features & Benefits:

- A stunning chrome finish covers a high-quality solid brass material and zinc handles.
- Includes ceramic disc technology, meaning there will be no more annoying leaks.
- Simple single lever operation to control the flow and temperature
- Deck mounted installation
- Flexible tails to aid installation.
- Complete with a FREE 10 Year Guarantee

Flow Rates (l/min):

- 0.5 bar: 8.88
- 1 bar: 12.4
- 3 bar: 21.2

Mixer Tap

A lot of properties still feature separate taps for hot and cold water. They take up a lot of space around the edge of your bath and make it difficult to fill. We've all been there, trying to adjust each tap to get a happy medium! You can easily avoid this hassle with a bath mixer tap. They connect both your hot and cold feed to the same tap body, feeding it out of the spout after it's been mixed within. They're easy to control, allowing you to get your desired water temperature for a perfect soak.

Single Lever Tap

If you're struggling to find a minimalist look for your bathroom then we understand your plight. Taps can be complicated and in this day and age all you want is something easy to use that looks great. Luckily, we have just the thing for you with our innovative single lever taps. As the name suggests, these taps are easy to use with just a single lever controlling the flow and temperature of the water.

Reliable Composite Cartridges

Your new tap will never fail as you thanks to the composite cartridge contained inside. This cartridge provides long lasting reliability and a smoother lever action for easier
