Good Morning,

Please find attached the developers notice and proposed plans to confirm we are submitting an application for prior approval to Havant Borough Council for the proposed telecommunications development. This follows a recent refusal for an proposal with a different scale and layout which was refused Due to the siting restricting the available width of the footpath and would obstruct and endanger pedestrians forcing them out into the highway and therefore resulting in an unacceptable impact on highway safety and vulnerable road users. This reason for refusal has now been overcome with a revised layout

Kind Regards

Thanks
