CAUTION: This email came from outside of the council - only open links and attachments that you expect.

Our Ref: 362752

Planning consultation: Erection of purpose built balcony approx. 6m long (a long face of building) by 2m wide (extending from face of building), positioned on the south elevation
Location: 90a Southwood Rd, Hayling Island PO11 9QF

Thank you for your consultation on the above dated 04 August 2021. Natural England notes that your authority, as competent authority, has undertaken an appropriate assessment of the proposal in accordance with regulation 63 of the Conservation of Species and Habitats Regulations 2017 (as amended). Natural England is a statutory consultee on the appropriate assessment stage of the Habitats Regulations Assessment process.

Your appropriate assessment concludes that your authority is able to ascertain that the proposal will not result in adverse effects on the integrity of any of the sites in question. Having considered the assessment, and the measures proposed to mitigate for all identified adverse effects that could potentially occur as a result of the proposal, Natural England advises that we concur with the assessment conclusions, providing that all mitigation measures are updated and appropriately secured in any planning permission given. Please find comments on the mitigation below.

No objection subject to mitigation

The site is located adjacent to the Solent and Dorset Coast Special Protection Area and the Solent Maritime Special Area of Conservation. The proposals have the potential to affect SPA functional land, which forms part of a network of terrestrial sites located outside of the Solent SPAs boundaries used by SPA species (including qualifying features and assemblage species) as

s alternative areas for roosting and foraging. These sites support the functionality of the designated sites and are therefore protected in this context.

The site affected C19 is classed as a Primary Support Area and supports high numbers of sanderling and ringed plover. Natural England advises that the submitted Construction Environmental Management Plan (CEMP) should be amended to clarify and, if necessary, lay out mitigation measures to address the following issues.

The CEMP should be amended address the following impacts:
=E2=80=A2 Dust suppression
=E2=80=A2 Waste disposal

This detail should be included in the updated Appropriate Assessment.

Should the developer wish to discuss the detail of measures to mitigate the effects described above with Natural England, we recommend that they seek advice through our Discretionary Advice Service.

If you have any queries relating to the advice in this email, please contact me on 07464 905079.

Should the proposal change, please consult us again.

Yours sincerely,

Joseph Forster
