Dear Sir,

Grass verge Cunningham Road, Waterloo, PO7 5TZ

Application for Prior Approval for 5G Telecommunications installation of slim line phase 8 monopole c/w wraparound cabinet at base, 3No. additional ancillary equipment cabinets and associated ancillary works.

Thank you for consulting the Highway Authority on the above planning application.

The applicant is proposing to implement a new 5G monopole and associated infrastructure on the grass verge adjacent to Cunningham Road. To the back of the pole, there is a narrow footway which must not be obstructed to ensure that pedestrians can utilise the path safely.

Further north along Cunningham Road there is a dropped kerb crossing area utilised by pedestrians. The applicant has not demonstrated the visibility splay for pedestrians will remain unobstructed following the installation of the proposed equipment. In the absence of the applicant demonstrating visibility splays compliant with HCC TG3 guidance, the Highway Authority are unable to confirm that the pedestrian crossing will not be adversely impacted by the proposed development.

The Highway Authority therefore recommend refusal for the proposed development on the following basis:

*Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI*

The applicant has failed to provide HCC TG3 compliant visibility splays for the pedestrian crossing point and therefore failed to demonstrate that pedestrian safety will not be adversely affected by the proposed development.

Yours sincerely,

Chris Hirst

Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI
