7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Appropriateness of design and impact on the character of the area
- (iii) Effect on neighbouring properties

(i) Principle of development

7.2 The application site is located within the defined urban area; therefore, development is considered acceptable in principle subject to development management criteria.

(ii) Appropriateness of design and impact on the character of the area

7.3 It is noted that houses across the road have front dormer windows which have pitched roofs.

7.4 The design and appearance of the proposal is deemed appropriate in context to the main building and is therefore considered to be acceptable, meeting the requirements of Policy CS16 of the HBLP (Core strategy). It is considered that the scheme would not result in an adverse impact on the visual amenity of the locality.

(iii) Effect on neighbouring properties

- 7.5 It is considered that the proposal will not appear overbearing or lead to overlooking and would have limited and acceptable impact on the properties immediately adjacent to the application site and the properties opposite or to the rear, meeting the requirements of Policy CS16 of the HBLP (Core Strategy). It is noted no letters of objection were received with respect to the scheme.

8 Conclusion

- 8.1 The scale, siting and design of the proposal would have limited and acceptable impact on the neighbours, the character of the area and the visual amenities of the street scene and is therefore considered to be appropriate and recommended for approval.
